

## GRAND DAY OUT – CRACKIN PICTURES GROMIT

New Year's Day a few of us went for a little jaunt to London

1<sup>st</sup> January 2020

Just in case you think you are seeing double these two pictures demonstrate the “Before and After” effect of Dave Pope finishing off 4 sausages, a mountain of mash plus green stuff.....peas!

Apparently the others had trouble keeping up with him on the way back as he took full advantage of the following wind.

Visitors stopped to admire Jim Greig's Ducati, commenting on how the brand appears to have at last overcome the tendency to loose bits when ridden.

Is that a locking nut on the concrete just below the sump guard?

Only joking Greig it really is a beautiful looking machine. I don't know what makes a Ducati of all bikes look like it is doing a ton even when parked.

## LETTERS TO THE EDITOR

From the Editors Email Box sent through by Peter Jennings

Dear Sir

You may be aware that in light of the government crackdown on social mobility as a result of Coronavirus we have suspended meetings and ride outs. As soon as the restrictions are lifted, we will be active again for sure.

In the meantime to remind us of less stressful times a picture taken on the very last Cracker Run at Meldreth Manor we did in December 2018 with a Santa Rex in attendance. We are now supporting other charities as sadly we have found interest in RDMCC from Meldreth had waned. An interesting photo, nevertheless.

Jasper

Dear Sir

In the difficult times there is concern that not only will our motorcycles not get regular use but our leathers are in danger of stiffening up. I have devised a home exercise machine which will not only help keep my leathers supple it also keeps me fit during the lock down.

If any member would like to construct one of their own then please email me for a set of plans.

Steve Coningsby

## FOR THE NEXT ISSUE

Remember it's your newsletter so it only works if you submit items.

The next quarterly issue is June 30 2020 so I look forward to articles of interest etc.
